1. The drawings were received on 6/22/05. These drawings are accepted.
2. Claims 12-14 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 2-4. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
3. Claims 1-4, 6-11 and 20 are allowed while claims 5 and 15 have been canceled.  
Claims 16-18 are objected to as being dependent upon a objected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Applicant's arguments, see pages 9-12 of the amendment, filed 6/22/05, with respect to the objections to the drawings and specification and rejections of claims 1-4, 6-14 and 16-20 have been fully considered and are persuasive. The objections of the specifications and drawings and rejections of the claims have been withdrawn.
5. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
